“ To Dan's family, I send my deepest sympathy. Although I never had the pleasure of meeting Dan, I know a bit about him from the stories his mother, Gail, has shared with me. I wish I could have met him. I know he was a loving husband, father, grandfather and son. His mother so enjoyed their phone conversations. And the visits to his home. She was looking forward to traveling to Indy to be with him as her health permitted, but that is not to be. She will forever be missing him! I know his passing has left a giant void in all of your lives. May the God of all comfort be with you now and in the days and months ahead, and may your tears turn into smiles as your recall your happy times with Dan. May Dan rest in eternal peace, with his father by his side. God bless you all.

*A friend of the family, Lisa.*
